

LEGNOK | EUTR operators platform

A platform where EUTR operators find utility tools for the Due Diligence

The portal LegnOk is based on the due diligence systems created by ConLegno and sealed by the UE. The portal is a flexible tool that offers the possibility to be guided while doing the three phases 3 (Access to the informations. Risk analysis, eventual risk mitigation) of the due diligence. The operator completes the entire process within the portal framework and can print and use the printed report from it (report of the risk analysis) to state the process underwent by the operator. This report identify all the informative sources used in and by the system and can be provided to the authority whether a control or an audit happens.
