

# Green City cadastre

*Green City cadastre is application which contains a list of trees on a specific area i.e. towns.*

Application Green City cadastre presents a list of trees on a specific area i.e. towns. Application contains information about the species and dimensions of trees, the condition of the timber, treetop and roots, and documentation about tree control intervals. Green City cadastre has developed and applied online in two cities in Croatia, Zagreb and Osijek. The application offers to citizens possibility to photograph the situation in a certain area (dried wood, broken bench, etc.) and to inform national authorities so they can respond in a timely manner.
