

Web-based due diligence and traceability system for forest timber assortments (MojGozdar)

A due diligence and traceability system for forest timber products requires a felling license and a contract with a forestry service provider. Necessary documents can be easily generated through a free online system that guides users through the process.

For more information see FOREST4EU factsheet ([click on](#))

MORE DETAILS

CHALLENGE ADDRESSED

5.- Enhance economic and environmental performance of forest supply chains

KEYWORDS

Supply chain
market and consumption
forest management
wood mobilization
