

Aids ICE digital transformation SMEs and self-employed

Submitted by editor on Fri, 20/09/2019 - 11:57

The Regional Government of Castilla y León, through the Institute for Business Competitiveness (ICE), has announced a new line of grants amounting to three million euros, 50% co-financed by the European Regional Development Fund (ERDF) of the European Union, with the aim of promoting the incorporation of Information and Communication Technologies (ICT) in SMEs and self-employed businesses in the Community. These supports are part of the package of 71.7 million euros in aid for the creation of companies and their investment projects, growth, innovation, technology and internationalization managed by the agency attached to the Ministry of Economy and Finance under the Financial Launcher.
