

Schönbuchturm Holzbauwerk in Herrenberg

The Schönbuchturm is a lookout tower east of Herrenberg in Baden-Württemberg, Germany. This walk-in wooden structure draws attention to the construction with wood. Notably is the use of regional wood (larch heartwood). The industry involved in the construction also comes from the area.

The main goals of the project are:

Regional added value / value chain

Architecture & wood usage

Public visibility

Drawing attention to the possibilities of wood construction and architecture as well as regional sustainable value chain

DETAILS
