

CAS Forest management and new technologies | Qualification programme

Qualification programme for forestry companies to build up management competences regarding newest economic and IT engineering procedures.

The qualification course delivers a Certificate of Advanced Studies (CAS). It is a part-time professional training course designed for company managers and engineers to build up management competences regarding newest economic and engineering procedures and leadership activity competences regarding forestry operations and forestry administration. It amounts to 360 hours or 12 ECTS. Good feedback from former participants about usability of the professional education training.
