

## A system for Quality assessment of Forestry Contractors (eGozd)

Moj Gozdar

*The forestry services market is dynamic, requiring skilled contractors to meet demand and maintain competitiveness. However, knowledge of their efficiency, social responsibility, and environmental impact is often limited. This is especially problematic during large-scale disturbances when forest owners lack information on service providers' quality and reliability. To address this, the "MojGozdar" system was developed in Slovenia. It assesses forestry contractors on three levels: formal suitability, expert evaluation, and customer ratings. The system emphasizes sustainability, corporate social responsibility, and environmental responsibility, helping forest owners connect with reliable contractors and improving service quality through user feedback.*

## MÁS DETALLES

---

### RETO ABORDADO

5. Mejorar el rendimiento económico y medioambiental de las cadenas de suministro forestal

### PALABRAS CLAVE

Services  
operations  
quality of model  
wood mobilization

### PAÍS DE ORIGEN

Eslovenia

### DOMINIO

Gestión forestal, silvicultura, servicios ecosistémicos, resiliencia  
Gestión de la innovación, hubs digitales, clusters, explotación (transversal)

### SOLUCIÓN DIGITAL

Sí

### ESCALA DE APLICACIÓN

Nacional

### TIPO DE SOLUCIÓN

Herramientas de asesoramiento y servicios para propietarios forestales

### INNOVACIÓN

Si

### AÑO DE INICIO Y FIN

--

## DATOS DE CONTACTO

---

### PROPIETARIO O AUTOR

Slovenian Forestry Institute

gteinfo@gozdis.si

### REPORTADOR

Amina Gačo
