

## Forest Sharing

**ROSEWOOD**  
**4.0** Sustainable Wood  
for Europe

Forest Sharing (FS) aims to enhance the forest heritage through the creation of an innovative platform, able to facilitate the meeting between players in the forest sector, planning an ethical and sustainable forest management. This service is mainly proposed for abandoned or unmanaged ownships, re-launching integrated management in order to obtain an environmental and economic benefit, thanks to the use of innovative technological tools.

We made several public test in not "forest" conventional places, such as shopping center and exhibitions, and we met there forest owners that have decided to subscribe the application to enter in FS.

These tests were important to validate the service and the idea behind FS. It is necessary to organize a system that allows managing multiple properties together, and reducing the time spent by the owner, for each step of the supply chain.

The first results underline how people are interest in this new approach, especially those that have a forest proprieties that at the moment are not-manage. FS have start to create a networking between all the different actors in forest sectors. Forest Sharing platform have networking different owners and more than 1000 hectares of forests are in connection. Thanks to FS now forest owners are associate and in the last month they apply for founding. Some of the proprieties and forest managers had benefit from the application of technologies tools implemented by FS. Through the social networks FS have obtained a wide interest of owners, forest technician and forest companies working in logging and no logging activities.

## DETALLES

---

**ORIGEN DE LA MADERA**

Trabajos de deconstrucción

**TIPO DE MADERA**

Madera en rollo

**POTENCIAL DE MOVILIZACIÓN**

120.000 cubic meters

**TIPO DE MADERA AFECTADA**

Steamwood, biomass

**FACILIDAD DE APLICACIÓN**

Low, without the availability of the developing platform

**IMPACTO EN EL MEDIO AMBIENTE Y LA BIODIVERSIDAD**

High, due to the sustainability approach

**FACILIDAD DE IMPLEMENTACIÓN - EVALUACIÓN**

--

**EFFECTO SOBRE LOS INGRESOS**

the owners receive an income from a forgotten resource

**PREREQUISITOS CLAVE**

Market and customer analysis

**POTENCIAL DE EXPLOTACIÓN**

--

**TIPO DE EVENTO EN EL QUE SE HA PRESENTADO ESTA IFS**

--

**HUB**

--

**EFFECTO SOBRE EL EMPLEO**

Good, increase employs in the forest chain

**IMPACTO ECONÓMICO**

High, enhance underused heritage

**COSTES DE IMPLEMENTACIÓN (EURO - €)**

--

**CONOCIMIENTOS ESPECÍFICOS NECESARIOS**

Share Economy

## MÁS DETALLES

---

RETO ABORDADO	DOMINIO	TIPO DE SOLUCIÓN
--	Gestión forestal, silvicultura, servicios ecosistémicos, resiliencia	--
PALABRAS CLAVE	SOLUCIÓN DIGITAL	INNOVACIÓN
--	No	No
PAÍS DE ORIGEN	ESCALA DE APLICACIÓN	AÑO DE INICIO Y FIN
Italia	Regional/sub-nacional	2018 - 2018
