

Information sheets LWF (Example: Supply of wood chips)

The information sheets of the LWF summarize the latest research findings for practical application. They are of interest for foresters, forest workers, forest owners and interested private persons.

The information sheets of the LWF contributes to a better forest culture and professionalization even in small scale forest ownership structure and is printed and published also in Internet.

Approach in the selected example:

Description of the different options to form a processing chain for the supply of wood chips (harvesting, logging/stocking, chopping, transport), with regard to the kind and the amount of wood available

Instruction for measuring the amount of wood chips based on the estimation of the stock volume

Sustainability: Recommendation to use branches and tree tops for wood chips only dependent of the location à should not be used in locations poor of nutrients. The withdrawal of nutrients can be decreased by debranching and removal of the tree tops à nutrients stay in the ecosystem and growth is maintained. Additionally, the quality of the wood chips increases and revenues can be higher

DETALJER

OPPRINNELSE FOR TRE

--

TYPE TRE

--

TYPE TRE INVOLVERT

Above ground biomass

MOBILISERINGSPOTENSIAL

1 – 2 m³/ha

BÆREKRAFTPOTENSIAL - VERDI

--

PÅVIRKNING PÅ MILJØ OG BIOLOGISK MANGFOLD

Advice to select methods according to the respective location

ENKEL IMPLEMENTERING

Easy

ENKEL IMPLEMENTERING - EVALUERING

--

INNTEKTSEFFEKT

Positive / more efficient working processes / cost reduction possibility identification

VIKTIGE FORUTSETNINGER

Expertise knowledge

UTNYTTELSESPOTENSIAL

--

TYPE BEGIVENHET DER DENNE BPI HAR BLITT OMTALT

--

HUB

--

EFFEKT PÅ ARBEIDSPLASSER

Better qualified staff

ØKONOMISK PÅVIRKNING

Enhancement of regionally added value / more efficient working processes /active learning

KOSTNADER MED IMPLEMENTERING (EURO - €)

--

SPESIFIKKE KUNNSKAPSBEHOV

Knowledge needed depending on process described
