

A system for Quality assessment of Forestry Contractors (eGozd)

The forestry services market is dynamic, requiring skilled contractors to meet demand and maintain competitiveness. However, knowledge of their efficiency, social responsibility, and environmental impact is often limited. This is especially problematic during large-scale disturbances when forest owners lack information on service providers' quality and reliability. To address this, the "MojGozdar" system was developed in Slovenia. It assesses forestry contractors on three levels: formal suitability, expert evaluation, and customer ratings. The system emphasizes sustainability, corporate social responsibility, and environmental responsibility, helping forest owners connect with reliable contractors and improving service quality through user feedback.

MAIS DETALHES

DESAFIO ABORDADO

5. Melhorar o desempenho económico e ambiental das cadeias de abastecimento florestal

DOMÍNIO

Gestão florestal, silvicultura, serviços do ecossistema, resiliencia
Inovações na gestão , pólos digitais, agrupamentos, exploração (transversal)

TIPO DE SOLUÇÃO

Ferramentas de consultoria e prestação de serviços a proprietários florestais

PALAVRAS-CHAVE

Services
operations
quality of model
wood mobilization

SOLUÇÃO DIGITAL

Sim

INOVAÇÃO

Sim

PAÍS DE ORIGEM

Eslovénia

ESCALA DE APLICAÇÃO

Nacional

ANO DE INÍCIO E FIM

--

DADOS DE CONTACTO

PROPRIETÁRIO OU AUTOR

Slovenian Forestry Institute

REPÓRTER

Amina Gačo
