

# Forest Management Contracts

Many forests that could generate income are not really managed and forest-owners don't take care of them. The causes are very often the low profitability of wood exploitation and the complexity of its management. Forest owners are not usually specialists and are not engaged in forestry activities. This leads to no incomes and to an increased risk of fires and pests. Faced with this situation, Agresta proposes specific contracts to forest-owners, making it possible a professional sustainable management allowing revenues, forest planning, wood mobilization, and infrastructure and silvicultural operations.

Forest management is not enough to get many forests out of abandonment. It is important to be in contact with main stakeholders and the reality of the markets, something that a forestry company can assure.

It is necessary to work with professionalism, entrepreneurial vision and long-term commitment, in a collaborative relationship and win-win with the owner. The specialization in turnkey forest management by a company allows improving and making profitable the management since it increases the innovation capacity, including the technological one (management software, forest inventories with remote sensing...)

Taking into account environmental and heritage issues of sustainable management

## DETALII

---

### SURSA DE LEMN

Pădure

### TIPUL DE LEMN

Lemn masiv

### TIPUL DE LEMN ÎN CAUZĂ

Stemwood

### IMPACTUL ASUPRA MEDIULUI ȘI BIODIVERSITĂȚII

Taking into account environmental and heritage issues of sustainable management

### EFFECT ASUPRA VENITURILOR

Locally high

### POTENȚIAL DE EXPLOATARE

--

### HUB

--

### IMPACT ECONOMIC

High impact for forest owners, more valuable forests

### CUNOȘTINȚE SPECIFICE NECESARE

Forest management concepts

### POTENȚIALUL DE MOBILIZARE

25.000 m3 per year

### POTENȚIAL DE SUSTENABILITATE - VALOARE
