

# Forest Sharing

Forest Sharing (FS) aims to enhance the forest heritage through the creation of an innovative platform, able to facilitate the meeting between players in the forest sector, planning an ethical and sustainable forest management. This service is mainly proposed for abandoned or unmanaged ownships, re-launching integrated management in order to obtain an environmental and economic benefit, thanks to the use of innovative technological tools.

We made several public test in not “forest” conventional places, such as shopping center and exhibitions, and we met there forest owners that have decided to subscribe the application to enter in FS.

These tests were important to validate the service and the idea behind FS. It is necessary to organize a system that allows managing multiple properties together, and reducing the time spent by the owner, for each step of the supply chain.

The first results underline how people are interest in this new approach, especially those that have a forest proprieties that at the moment are not-manage. FS have start to create a networking between all the different actors in forest sectors. Forest Sharing platform have networking different owners and more than 1000 hectares of forests are in connection. Thanks to FS now forest owners are associate and in the last month they apply for founding. Some of the proprieties and forest managers had benefit from the application of technologies tools implemented by FS. Through the social networks FS have obtained a wide interest of owners, forest technician and forest companies working in logging and no logging activities.

## DETALII

---

### SURSA DE LEMN

Lucrări de demolare

### TIPUL DE LEMN

Lemn masiv

### TIPUL DE LEMN ÎN CAUZĂ

Steamwood, biomass

### IMPACTUL ASUPRA MEDIULUI ȘI BIODIVERSITĂȚII

High, due to the sustainability approach

### EFACT ASUPRA VENITURILOR

the owners receive an income from a forgotten resource

### POTENȚIAL DE EXPLOATARE

--

### HUB

--

### IMPACT ECONOMIC

High, enhance underused heritage

### CUNOȘTINȚE SPECIFICE NECESARE

Share Economy

### POTENȚIALUL DE MOBILIZARE

120.000 cubic meters

### POTENȚIAL DE SUSTENABILITATE - VALOARE

--

### FACILITATEA DE IMPLEMENTARE

Low, without the availability of the developing platform

### FACILITATEA DE IMPLEMENTARE - EVALUARE

--

### CONDIȚII CHEIE PRELABILE

Market and customer analysis

### TIPUL DE EVENIMENT LA CARE A FOST PREZENTAT ACEST IPB

--

### EFACT ASUPRA LOCURILOR DE MUNCĂ

Good, increase employs in the forest chain

### COSTURI PENTRU IMPLEMENTARE (EURO - €)
