

Description of best practice

Best practice	
Title	Flurbereinigung/Flurneuordnung
Picture	
Domain	Legal framework/ Infrastructure/ Land Tenure
Source of wood	Woodland/ forests
Location	Germany
Implementers	Responsible governments authorities
Actual status	Running
Approach	<p>A land-consolidation procedure aimed at reorganizing land, including forestland. During the restructuring process, mostly smaller scattered areas (fragmented land) are combined to larger and thus more effective usable areas. The reason for the previous fragmentation is the „real division“. Landscaping also includes the creation of paths, roads and waters as well as similar public facilities.</p> <p>The main goals of this process are:</p> <ul style="list-style-type: none"> • Better and more efficient cultivation • Maximum possible benefit for all stakeholders and public • Increase in value
Main results	Improving land occupancy
Lessons learned	
Contact information	Responsible governments authorities
Link to website	http://www.flurbereinigung.org/
Code	BP_BW_07

Innovation assessment

Region	Germany
Time scale	Multi-annual action
Mobilization Potential	Depending on concerned land
Kind of wood concerned	Depending on concerned land
Sustainability Potential	Very positive
Impact on environment & biodiversity	Assessment of environmental effects
Ease of implementation	Varying
Economic impact	55-85% can come from subsidies
Job effect	Positive/ creation of local workplaces
Income effect	N.A.
Specific knowledge needed	Needs of forests owners
Costs of implementation	Depending on concerned land
Technical readiness level	N.A.
Key information for adoption	This procedure is. Established and well known in Germany.
