Description of best practice

Best practice	
Title	„ForestManager" (Forest-Administration-App)
Picture	
Domain	Sustainable management and planning/ Risk management/ Digitalization / Data security / IT driven solutions
Source of wood	Depending on user
Location	Germany
Implementers	rBITech UG
Actual status	Completed, but continuously improved
Approach	The ForestManager is an app that serves as a reminder in the management of forestland. Green areas and forests can be managed and documented with the support of GPS data. These functions offer the possibility to document observations, to take pictures, to print them, to send and to export them for further use. Moreover, it allows a comparison of historical and current data and can detect changes in the environment.
Main results	Technological assistance for the efficient management of forest areas.
Lessons learned	
Contact information	rBITech UG Franz-Mayer-Straße 1 93053 Regensburg Geschäftsführer: Bernd Gietzelt Tel: 0941 604889657

Code	BP_BW_12

Best practice assessment

Region	Germany
Time scale	Development ongoing
Mobilization Potential	High / app can be used anywhere in the forest
Kind of wood concerned	Depending on user
Sustainability Potential	Positive
Impact on environment & biodiversity	Positive
Ease of implementation	Easy
Economic impact	Positive / reduces workload for forest rangers
Job effect	N.A.
Income effect	Positive
Specific knowledge needed	Dealing with smartphone
Costs of implementation	N.A.
Technical readiness level	Applicable
Key information for adoption	Technological assistance The app is available for free on Google Playstore
