Code	IN_DE_09

Innovation assessment

Region	Bavaria
Time scale	Since 2010
Mobilization Potential	No mobilization
Kind of wood concerned	Recycled wood / waste wood
Sustainability Potential	Positive as recycled wood is used
Impact on environment & biodiversity	Small effect on biodiversity and forest resilience enhancement
Ease of implementation	Easy
Economic impact	Small niche market
Job effect	Not possible to estimate as company produces further products
Income effect	low
Specific knowledge needed	Experience about manufacturing process needed
Costs of implementation	Several 100'000€ to start production
Technical readiness level	Applicable
Key information for adoption	Experience about sourcing and also selling essential
