

A public information system for the recording and mapping of fungi in Slovenia.

Boletus informaticus is a public information system for the recording and mapping of fungi in Slovenia. It consists of a central database of fungi in Slovenia, a web, mobile and desktop application, and a Mycotheca and Herbarium of Slovenian Forestry Institute. The information system Boletus informaticus is the result of cooperation between Slovenian Forestry Institute, Mycological Association of Slovenia, and Institute for systematics of higher fungi.

IZZIV	DOMENA	TIP REŠITVE
7. Ozaveščanje javnosti, socialna sprejemljivost in politična podpora gozdarstvu	Motnje, tveganja, odziv na naravne nesreče	Podatkovna platforma, vozlišča podatkov, odprti podatki
KLJUČNE BESEDE	DIGITALNE REŠITVE	INOVACIJA
fungi	Da	Da
