

SAFERS | Structured Approaches for Forest Fire Emergencies in Resilient Societies

SAFERS mission is to support societies becoming more resilient across the key phases of the forests fires emergency management cycle

The project is going to create an open and integrated platform featuring a forest fire Decision Support System. The platform will use information from different sources: earth observations from Copernicus and GEOSS, fire sensors in forests, topographic data, weather forecasts and even crowdsourced data from social media and other apps that can be used by citizens and first responders to provide situational in-field information.

**VEČ
PODROBNOSTI**

IZZIV	DOMENA	TIP REŠITVE
1. Izboljšava odpornosti gozdov in prilagoditev na klimatske spremembe	Motnje, tveganja, odziv na naravne nesreče	Sledljivost
KLJUČNE BESEDE	DIGITALNE REŠITVE	INOVACIJA
Risk maps preparedness actions early detection	Da	Da
IZVORNA DRŽAVA	OBSEG UPORABE	ZAČETNO IN KONČNO LETO
Grčija	Kontinentalno	2020 -
